## SUMMARY

Aspiring Junior SQL Developer with strong knowledge of SQL, MySQL, database design, T-SQL basics, and relational databases. Experienced in developing database-driven applications using MySQL with React and Django. Passionate about writing efficient SQL queries, optimizing databases, and learning Microsoft SQL Server technologies.

## EXPERIENCE

**Octanet Services, Web Development Intern** 01/2024 – 02/2024 | Tamil Nadu

- Designed responsive web interfaces using HTML, CSS, and JavaScript to support dynamic client requirements.
- Contributed to UI improvements and lightweight design workflows for smoother user interaction.

**Zarach Technologies, Cybersecurity Intern** 07/2024 – 08/2024 | Tamil Nadu

- Applied foundational cybersecurity practices across system and network concepts during hands-on tasks.
- Worked with vulnerability identification workflows and basic protection techniques to strengthen digital environments.

## EDUCATION

**B.Tech Information Technology** 08/2022 – 05/2026 | Tamil Nadu  
**KPR Institute of Engineering and Technology**  
Cgpa -7.5

**Higher Secondary Certificate (HSC), Rajavignesh Higher Secondary School** 06/2022 | Tamil Nadu  
XII - 90%

**Secondary Education, Sathya Saai Matriculation Higher Secondary School** 05/2020 | Tamil Nadu  
X - 85.6%

## SKILLS

## PROJECTS

### Smart Job Portal System

- Developed a full-stack **Job Portal** using **React.js**, **Django**, and **MySQL**, designing a normalized relational database schema with primary and foreign keys for efficient data management.
- Implemented user authentication, job posting, job search, and application tracking by performing **CRUD operations** and writing SQL queries using **JOINS, GROUP BY, aggregate functions, and subqueries**.
- Optimized database performance through efficient query design and indexing, and successfully deployed the application on **AWS** for scalable and reliable access..

### Student Management System

- Developed a web-based Student Management System using React.js and Django.
- Implemented student registration, profile management, attendance tracking, and academic record management with MySQL database integration.
- Designed responsive user interfaces and optimized database operations for efficient data handling.
